SUMMARY.

SENIORS	7
JUNIORS	14
SOPHOMORE	15
FRESHMEN	39
PREPARATORY	78
	153

Admission.

Candidates for admission to College must present testimonials of good moral character, or certificates of honorable dismission from other Colleges.

Every student must write in the Matriculation Book of the College, his own name, and the name and place of abode of his father or guardian.

An accurate knowledge of the following studies will be required for admission to the Freshman Class.

LATIN	Reader and Prose Composition. Two Books of Cæsar's Commentaries. Four Books of Virgil's Æneid, and Prosody. Harkness' Grammar.
GREEK	Lessons, Reader, and Composition. Two Books of Xenophon's Anabasis. Hadley's Grammar.
MATHEMATICS	Arithmetic. Higher Algebra to Quadratic Equations.
ENGLISH	Geography. Grammar. History.

For admission to the advanced classes a knowledge of the previous studies of the course, or their equivalents, will be required.

All members of the Senior Class will be expected to be in attendance during the entire senior year.

For the present, to accommodate students preparing for the College course, classes will commence Latin the first term of the College year, and Greek and Algebra the second term. The Professors of the College will give instruction to these classes.

Classical Department.

FRESHMAN YEAR.

FIRST TERM.

Virgil.
Herodotus.
Algebra, commencing at Quadratics.
Geometry.

SECOND TERM.

Sallust.
Homer's Iliad.
Algebra completed.
Geometry and Conic Sections.

THIRD TERM.

Cicero's Orations.
Homer's Iliad.
Trigonometry, plane and spherical.
Botany—Lectures.

Composition and Declamation through the year.

SOPHOMORE YEAR.

FIRST TERM.

Livy and Latin Etymologies.
Xenophon's Memorabilia and Greek Etymologies.
Surveying.
History of English Literature.

SECOND TERM.

Horace.
Plato.
Analytical Geometry.
Zoology—Lectures.

THIRD TERM.

Tacitus—Germania and Agricola.
Calculus—Differential and Integral.
Physics—Lectures on Light, Heat and Electricity.
Logic.

Composition and Declamation through the year.

Classical Department.

JUNIOR YEAR.

FIRST TERM.

Greek Tragedy.
Physics.
Rhetoric.
Natural Theology and Evidences of Christianity.

SECOND TERM.

Tacitus—History.
Physics — Undulations, Acoustics and Optics.
Inorganic Chemistry.
Intellectual Philosophy.

THIRD TERM.

Thucydides.
Astronomy.
Organic Chemistry.
Criticism.

Composition and Declamation through the year.

SENIOR YEAR.

FIRST TERM.

Cicero *de officiis.*
Astronomy—Lectures.
Mineralogy.
Philology.

SECOND TERM.

Geology.
Political Economy.
Butler's Analogy.
Art History—Lectures.

THIRD TERM.

Geology.
Moral Philosophy.
International Law and Constitution of the United States.
Art History—Lectures.

Original Orations through the year.

Scientific Department.

FRESHMAN YEAR.

FIRST TERM:

French Grammar.
Algebra, commencing at Quadratics.
Geometry.
Physical Geography.

SECOND TERM.

French.
Algebra completed.
Geometry and Conic Sections.
Anatomy and Physiology.

THIRD TERM.

French.
German Grammar.
Trigonometry, plane and spherical.
Botany—Lectures.

Free-hand Drawing, Composition and Declamation through the year.

SOPHOMORE YEAR.

FIRST TERM.

German.
Surveying.
History of English Literature.
Latin and Greek Etymologies—Lectures.

SECOND TERM.

French.
German.
Analytical Geometry.
Zoology—Lectures.

THIRD TERM.

French.
Calculus.
Physics—Lectures on Light, Heat and Electricity.
Logic.

Topographical Drawing, Composition and Declamation through the year.

Scientific Department.

JUNIOR YEAR.

FIRST TERM.

French.
Physics—Solids and Fluids.
Rhetoric.
Natural Theology and Evidences of Christianity.

SECOND TERM.

German.
Physics—Undulations, Acoustics and Optics.
Inorganic Chemistry.
Intellectual Philosophy.

THIRD TERM.

German.
Astronomy.
Organic Chemistry.
Criticism.

Mechanical and Architectural Drawing, Composition and Declamation through the year.

SENIOR YEAR.

FIRST TERM.

German.
Astronomy—Lectures.
Mineralogy.
Philology.
Esthetics—Lectures.

SECOND TERM.

Geology.
Butler's Analogy.
Political Economy.
Art History—Lectures.

THIRD TERM.

Geology.
Moral Philosophy.
International Law and Constitution of the United States.
Art History—Lectures.

Original Orations through the year.

Biblical Department.

FRESHMAN YEAR.

FIRST TERM.

Virgil.
Herodotus.
Algebra, commencing at Quadratics.
Geometry.

SECOND TERM.

Sallust.
Homer's Iliad.
Algebra completed.
Geometry and Conic Sections.

THIRD TERM.

Cicero's Orations.
Homer's Iliad.
Trigonometry, plane and spherical.
Botany—Lectures.

Composition and Declamation through the year.

SOPHOMORE YEAR.

FIRST TERM.

Livy and Latin Etymologies.
Xenophon's Memorabilia and Greek Etymologies.
Hebrew Grammar.
History of English Literature.

SECOND TERM.

Greek—New Testament.
Hebrew.
Analytical Geometry.
Zoology—Lectures.

THIRD TERM.

Greek—New Testament.
Hebrew.
Physics—Lectures.
Logic.

Composition and Declamation through the year.

Biblical Department.

JUNIOR YEAR.

FIRST TERM.

Hebrew.
Physics—Solids and Fluids.
Rhetoric.
Natural Theology and Evidences of Christianity.

SECOND TERM.

Hebrew.
Physics — Undulations, Acoustics and Optics.
Inorganic Chemistry.
Intellectual Philosophy.

THIRD TERM.

Hebrew.
Astronomy.
Organic Chemistry.
Criticism.

Composition and Declamation through the year.

SENIOR YEAR.

FIRST TERM.

Astronomy—Lectures.
Mineralogy.
Biblical Literature.
Philology.

SECOND TERM.

Geology.
Political Economy.
Biblical Literature.
Butler's Analogy.

THIRD TERM.

Geology—Lectures.
Moral Philosophy.
Biblical Literature.
International Law and Constitution of the United States.

Original Orations through the year.

Collegiate Classes.---Order of Recitations.

FALL TERM.

	SENIOR.	JUNIOR.	SOPHOMORE.	FRESHMAN.
8.30-9.25	Mineralogy.	Greek Tragedy. French VI. Hebrew IV.	Livy.	Geometry.
9.25-10.20	Cicero de Officiis. German VI. Esthetics.* Biblical Literature	Rhetoric.	Surveying.	Herodotus. Physical Geography.
10.20-11.15	Astronomy.* Philology.*	Natural Theology	English Literature	Virgil. French I.
11.15-12.10		Physics.	Memorabilia. German II. Hebrew I.	Algebra II.

WINTER TERM.

	SENIOR.	JUNIOR.	SOPHOMORE.	FRESHMAN.
8.30-9.25	Butler's Analogy Art History.*	Physics.	Analytical Geometry.	Sallust. French II.
9.25-10.20	Political Economy	Tacitus—History. German IV. Hebrew V.	Zoology. Greek—New Testament.	Geometry and Conic Sections.
10.20-11.15	Geology.	Intellectual Philosophy.	Plato. French IV. Hebrew II.	Algebra III.
11.15-12.10	Biblical Literature	Inorganic Chemistry.	Horace. German III.	Iliad. Anatomy and Physiology.

SPRING TERM.

	SENIOR.	JUNIOR.	SOPHOMORE.	FRESHMAN.
8.30-9.25	Geology.	Criticism.	Calculus. Hebrew III.	Cicero's Orations. French III.
9.25-10.20	International Law and Constitution of United States.	Thucydides. German V. Hebrew VI.	Physics.	Trigonometry.
10.20-11.15	Biblical Literature Art History.	Organic Chemistry.	Logic.	Iliad. German I.
11.15-12.10	Moral Philosophy.	Astronomy.	Tacitus Germania and Agricola. French V. Greek Testament.	Botany.

* Lectures.

EXAMINATIONS.

There will be three examinations of classes during the year. The first will be on the last three days of the Fall Term. The second will be on the last three days of the Winter Term. The third will begin a week previous to commencement.

DEGREES.

The Degree of Bachelor of Arts will be conferred upon those who complete, in a satisfactory manner, either of the preceding courses of study.

The Degree of Master of Arts may be conferred in course on every Bachelor of Arts of three years' standing, who has been engaged since his graduation in some literary occupation, and has sustained a good moral character. Application must be made to the President as early as the Monday preceding commencement, advancing the usual fee.

RELIGIOUS WORSHIP.

The Scriptures are read and prayer offered mornings in the College Chapel, at which time all the Students are required to be present.

Regular attendance on some place of religious worship on the Sabbath is a requirement of the College.

The Student's Prayer Meeting will be held on Thursday evening of each week.

PUBLIC EXERCISES.

Lectures by the Professors, original orations by the Senior Class, and declamations, compositions, original orations, and debates by the literary societies, on Tuesday evening of each week.

The Musical Association will meet on Friday evening.

COLLEGE HONORS--1866.

First Honor,.....Valedictory,.....Welty J. Wilson.
Second Honor,.....Greek Salutatory,..John A. Simpson.
Third Honor,.....Latin Salutatory,..William W. Painter.

PRIZES--1866.

DECLAMATIONS.

The President's prizes, competed for by all the members of College, were awarded as follows:

The first to

JAMES I. PINNEY.

The second to

GEORGE W. PLUMMER.

The Keystone Prize has been established in connection with the Allegheny Literary Society.

NOT COMPETED FOR.

The Chambers' Prize, established in connection with the Philo-Franklin Literary Society, and competed for by all its members, was awarded to

MICHAEL POWERS.

The Painter Prize, established in connection with the Biblical Literary Society, and competed for by all the members of the Society except the seniors, was awarded to

HENRY J. JOHNSON.

ESSAYS.

ALLEGHENY LITERARY SOCIETY.

The Allegheny prize, competed for by its members in either the Freshman Class or the Preparatory Department, was awarded to

N. IRWIN SHUGERT.

The Hazeltine prize, competed for by all the members of the society was awarded to

CYRUS C. CLARKE.

PHILO-FRANKLIN LITERARY SOCIETY.

The Kalamathean Prize, competed for by all its members in either the Freshman Class or Preparatory Department, was awarded to

JAMES P. COULTER.

The Woodruff Prize, competed for by all its members, was awarded to

JOHN A. SIMPSON.

BIBLICAL LITERARY SOCIETY.

The Hunter Prize, Competed for by all its members, was awarded to

JOHN A. WRIGHT.

ORATIONS.

The Austin Prize, established in connection with the Biblical Literary Society, was

NOT COMPETED FOR.

"The Beth Gimel Lamed Oration Prize" has been established in connection with the Allegheny Literary Society.

NOT COMPETED FOR.

ASTRONOMICAL INSTRUMENTS.

By generous donation, G. B. Delamater, Esq., has furnished an excellent Telescope, 8 feet Refractor, 7½ inches Object Glass, in power, capable of separating minute double stars; manufactured by A. Clark & Son, Cambridgeport, Mass. Also a superb Transit from the hands of Stackpole Bros., New York. These instruments are temporarily mounted, waiting the erection of a suitable observatory.

Also Sextant Transit, with Meridian Finder, Prismatic Compass, and other instruments essential to the department of ENGINEERING, all of first class workmanship, and practically used in the field.

APPARATUS AND CABINETS.

Through the munificence of Hon. C. V. Culver, the College is now in possession of extensive cabinets of Mineralogy and Conchology, and complete Chemical and Philosophical apparatus, of the latest and most approved forms.

The apparatus, for the most part, has been made to order by manufacturers having the highest reputation for skill in their special departments. It comprises several hundred distinct pieces, affording the most ample means of illustrating every branch of physics and chemistry now taught in collegiate institutions.

Among the more expensive instruments are the following:

A compound microscope with accessories, manufactured by Zentmayer, of Philadelphia, at a cost of about $500.

A Rumkorff Induction coil, giving a twelve inch spark, by E. S. Ritchie & Co., of Boston, costing $525.

A Thilorier's apparatus for solidifying carbonic acid.

Eighteen instruments to illustrate the laws of Undulations.

Auzoux's largest size Anatomical Models of the Eye, Ear, Brain, and Larynx.

Apparatus for reproducing Tyndall's experiments on Heat.

A solar microscope.

Two polariscopes with accessories.

A spectroscope with four prisms.

Apparatus for projecting optical phenomena upon a screen, including a first class double lantern, adapted to four kinds of light.

The optical instruments, excepting the Compound Microscope, Telescope and Astronomical Transit, were made by M. Duboscq, of Paris.

The laboratory is stocked with a full assortment of common chemicals, a cabinet of rare preparations, and an abundant supply of apparatus for all chemical purposes—the greater part of which has been imported from Paris and Berlin.

The cabinets embrace four distinct collections of minerals and shells.

1. The Prescott Cabinet, comprises 2,400 species of marine, terrestrial and freshwater shells, and about 3,000 specimens of minerals and fossils collected and mounted by Dr. William Prescott, of Concord, N. H.

2. The Haldeman Cabinet has 550 excellent and carefully labeled species of minerals, and about 2,000 species of shells, and was purchased of S. S. Haldeman, of Columbia, Pennsylvania.

3. The Alger Cabinet. This magnificent collection, made by the late Francis Alger, of Boston, was purchased at the price of $12,000, and contains 5,000 specimens of minerals, remarkable for their beauty and variety, many of them unique. It embraces also a large number of duplicates, and a handsome suite of about 1,500 species of shells. This collection is said to have cost Mr. Alger over $35,000.

4. Cabinet of Lithology and Palæontology.—Arrangements have been made with Prof. Henry A. Ward, of the University of Rochester, for a Lithological and Palæontological cabinet of over 11,000 specimens, about 1,000 of which have

been received. The Megatherium Cuvierii and six other large casts are mounted in the former chapel, which has been fitted up in elegant style for this Geological Museum.

A skillful Taxidermist is now engaged in preparing the birds of New England, some two hundred of which have already been received.

Smithsonian Collections.—In addition to several valuable collections heretofore received from the Smithsonian Institution there has been added during the past year a suite of over 500 species of land, marine and freshwater shells, from Panama, Vancouvers Island, and the West Indies, chiefly obtained by the late Prof. C. B. Adams, and authentically labelled by H. Cuming and by Dr. P. B. Carpenter, from the collections of D'Orbigny & Cuming.

These valuable additions will greatly increase the scientific advantages of the College and furnish special incentives to the study of Natural Science.

MUSEUM OF ART HISTORY.

A commencement has been made in the formation of a Museum to illustrate the History of the Fine-Arts. At present the collection contains sixty casts of works of sculpture, two hundred photographs and the same number of engravings. They are so selected as to represent characteristic features of the different periods of the arts of Architecture, Sculpture and Painting.

Among the casts are:

The Apollo Belvidere.....original in the Vatican, Rome.
Niobe.....original in the Uffizzi Galery, Florence.
Venus of Milo.....original in the Louvre, Paris.
Polyhyminia and Ancyrrhoe, origs. in the Royal Museum, Berlin.
The Apostles, Peter, Paul, and James, by Peter Vischer, originals in St. Sibaldus Church, Nuremberg.
Moses, by Michael Angelo.....original in Rome.

The Nuremburg Nun, statues of Handel and Lessing, busts of Sophocles, Euripides, Göthe, Schiller, and various Egyptian, Grecian, and Medieval bas-reliefs.

The Royal Museum of Berlin has also presented to Allegheny College, casts of the celebrated Statue of Diana Colonna, busts of Alexander the Great and Julius Cæsar, the Wackenroder Memorial, German and Roman huts, casts of Indian and Assyrian sculpture and a fine collection of original German and Classical antiquities, consisting of German stone hammers, battle-axes, drinking vessels, and Greek and Etruscan vases and lamps.

A large Chinese, and also a Japanese Painting, have been presented to the Museum.

Rev. Mr. Long, Missionary to Bulgaria, has presented some Terra Cottas and Coins from Ephesus.

Friends and patrons of the College, traveling abroad, are invited to add to this Museum works of art of any kind, but especially photographs of historical works of architecture, or original antiquities of any nation. Copies of the works of native artists, memorials of the late war, or any articles to illustrate the history of the Indian or European races in this continent, will be carefully preserved. The names of the donors will be attached to all articles thus presented.

LITERARY SOCIETIES.

The Allegheny, Philo-Franklin, and Biblical Literary Societies, have each their respective halls and libraries.

LIBRARY.

The College and Society Libraries contain upwards of ten thousand volumes, embracing many rare and valuable works, and accessible to all the Students.

READING ROOM.

A Reading Room, sustained by the voluntary contributions of the Students and Faculty, affords access to the leading periodicals of America and England.

EXPENSES.

For the present, board in the Hall, including room rent, use of furniture, care of room, and washing of bed linen and towels, will be four dollars and a half a week, payable in advance.

An incidental fee of four dollars a term will be charged to defray the current expenses of fuel for recitation rooms, services of janitor, and the ordinary repairs of the College buildings.

CALENDAR FOR 1867-8.

1867.

January 3.—Commencement of Winter Term.
